

Dear Jan & Salvador:

We have a very important message we need to share with you. Please take a minute to read this letter and hear our concerns.

This is a critical election in your area that will affect what kind of economic future we will have in our state in the next two years. Let us explain.

Sal Esquivel's Challenger, Lynn Howe, Supports Taxpayer-Funded Political Campaigns.

Oregon consistently ranks in the top five in unemployment. Our homeless and hunger statistics are near the top as well. Why would anyone support using our tax dollars to fund political campaigns when there are much more serious issues we have to manage in our state?

Lynn Howe's support of taxpayer-funded political campaigns shows she is out of touch with the issues facing Oregon.

Lynn Howe Supports Government-Run Healthcare like Obamacare and New Healthcare Taxes.

Lynn Howe also supports the government takeover of health care. She is willing to sacrifice local control for a program run by government bureaucrats that would be charged to manage care for all of us. In addition, Howe supports adding new taxes on healthcare premiums to pay for Universal care. Is that what you want?

Sal Esquivel Opposes New Tax Increases, Seeks Government Reform at All Levels.

Sal Esquivel doesn't believe government has the answers; in fact, he is a strong supporter of government reform and revisiting Oregon's tax structure in order to help small businesses expand and grow to create new private sector jobs.

Key Small Business and Agriculture Groups Endorse Esquivel, Focus on Job Creation.

Most leading small business and agriculture groups are getting behind Sal Esquivel. These groups are focused on creating new policies to help create private-sector jobs in our small businesses and farms. Groups such as the Oregon Farm Bureau, NFIB, Medford/Jackson County Chamber of Commerce, Associated Oregon Industries, Loggers, and many more are supporting Sal Esquivel.

So please join us in supporting Sal Esquivel. We need new jobs, not new government-run programs and taxes. This is one of the few elections that can tip the balance of power in Oregon.

Sincerely,

A handwritten signature in black ink, appearing to read "Ross Day".
